

VA PACT ACT PERFORMANCE DASHBOARD

JANUARY 05, 2024

ISSUE TWENTY-FOUR Published Bi-weekly on Fridays

In this VA PACT Act Performance Dashboard, we are demonstrating our commitment to transparency by sharing with all stakeholders — internal to VA and externally—key performance metrics and data we are using to assess our success in implementing the PACT Act.

expanding benefits	схр	anding care
665,675 Total PACT Act Claims Approved (08/10/2022-12/30/2023)	75.7% Approval Rate	223,934 New Enrollees in the PACT Act Planning Population (08/10/2022–12/31/2023)

GEOGRAPHICAL ANALYSIS

Issue 24—January 05, 2024

Starting with Issue 20 (November 10, 2023), State-by-State data and Congressional District data will be available in the Excel spreadsheet at https://department.va.gov/pactdata/ (this link has been updated from previous issues). This data will be updated on a monthly basis.

Metric/Term	Definition
Cumulative Total: PACT Act Related Claims Submitted	This statistic identifies the total number of VBA benefits claims with at least one PACT Act related condition received since August 10, 2022.
VHA Trust	This trust score reflects the percentage of Veterans who respond to the survey question, "I trust the VHA [Facility Name] for my health care needs" with a score of 4 or 5.
Approval Rate for PACT Act Related Claims since 08/10/22 (percentage)	Percentage of PACT act disability claims where at least one condition was granted (regardless of whether or not the condition was filed under PACT).
Average Days for PACT Act Claims Completion	This metric indicates the length of time it takes VBA to process a PACT Act-related benefits claim. This is measured from the date VA receives a claim to the date VA finished processing the claim and closed it out + 1 day, to eliminate the possibility of claims being completed in 0 days (ex. claim completed on the day it was received).
	The Average Days to Complete (ADC) for PACT Act Related Claims is calculated based on the date VA received the claim, not the date VA began processing those claims. VA prioritized and completed some claims related to terminal illnesses, but VA did not begin processing most claims until January 1, 2023. As a result, the current value of ADC is inflated by any time between the date the claim was received and the January 1, 2023 implementation date for processing. The high ADC for PACT claims demonstrates VA's commitment to completing oldest pending claims first.
PACT Act Related Rating Claims Completed = 125 days</td <td>This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.</td>	This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.
Total PACT Act Claims Approved	This metric identifies the number of completed PACT disability claims where at least one issue was granted.
PACT Act Planning Population	The PACT Act Planning Population consists of Veterans where VA has a high level of confidence they are a member of one or more of the three PACT Act eligible cohorts (Vietnam, Gulf-War, Post 9-11). VA is using this population as a means of identifying the impact of the PACT Act on enrollment in VA health care.
New Enrollees in the PACT Act Planning Population	This statistic measures the number of new enrollees in VA health care that fall within the PACT Act Planning Population to understand the impact of the PA Act on enrollment. By design, this more focused metric will always be a subset of the metric above that shows overall new enrollment regardless of wheth a Veteran is in an eligible PACT Act cohort. Together these two enrollment metrics help identify both the broad impact of PACT Act on enrollment - for example, those who may enroll for VA health care because of the publicity of PACT Act but are not directly eligible because of PACT Act— impact of PACT Act—meaning those who are enrolling from populations VA assesses as becoming eligible due to the PACT Act.
Total New VHA Enrollees	This statistic identifies the total new VHA enrollments (newly registered healthcare beneficiaries) for the periods of August 2022-End of Current Month 202 and August 2021-End of month 2022, for comparative analysis purposes.
Increase in New Enrollees in VHA	This number identifies the change between 2023 and 2022 VHA enrollees during the same time period.
	This number identifies the change between 2023 and 2022 VHA enfoliees during the same time period.
Upcoming Outreach Calendar	This calendar identifies key activities or outreach events occurring in the coming weeks.
Upcoming Outreach Calendar	
Upcoming Outreach Calendar Page Two	This calendar identifies key activities or outreach events occurring in the coming weeks.
Upcoming Outreach Calendar Page Two Metric/Term	This calendar identifies key activities or outreach events occurring in the coming weeks. Definition This statistic identifies the number of Veterans who have received a VHA Toxic Exposure Screening. Every Veteran enrolled in VA health care will receive an initial screening and a follow-up screening at least once every 5 years. Veterans who are not enrolled and who meet eligibility requirements will have an opportunity to enroll and receive the screening.
Upcoming Outreach Calendar Page Two Metric/Term	This calendar identifies key activities or outreach events occurring in the coming weeks. This number identifies the total VBA benefits claims completed each week not related to PACT Act.

This metric identifies the average number of days it takes VBA to process a PACT Act related benefits claim.

This statistic identifies the current number of VBA benefit claims with one or more PACT Act-related conditions that have been pending for 125 days or less. This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.

This metric identifies the average number of days it takes VBA to process a Non-PACT Act related benefits claim.

This statistic identifies the current number of pending VBA benefit claims with one or more Non-PACT Act-related conditions less than 125 days old. This statistic identifies the number of non-PACT VBA benefit claims that have been completed in 125 days or less.

This statistic identifies the cumulative total of VBA benefits claims received since August 10, 2022, which are not related to the PACT Act.

This statistic identifies the cumulative total of VBA benefits claims completed since August 10, 2022, which are not related to the PACT Act.

This metric identifies the unique number of Veterans and Survivors who have filed a PACT Act benefit claim which VBA processed to completion.

This metric identifies the unique number of Veterans who filed a PACT Act benefit claim which VBA processed to completion.

This metric identifies the unique number of Survivors who filed a PACT Act benefit claim which VBA processed to completion.

Metric/Term	Definition
Electronic PACT Act Claims Submitted by Power of Attorney (percentage)	Total number of PACT disability claims submitted electronically by a Power of Attorney out of the total number of PACT disability claims submitted electronically.
Electronic PACT Act Claims Submitted by Veterans (percentage)	Total number of PACT disability claims submitted electronically by a Veteran out of the total number of PACT disability claims submitted electronically.
PACT Act Claims Submitted Electronically (percentage)	Total number of PACT disability claims submitted electronically out of the total number of PACT disability claims submitted.
PACT Act Claims Submitted through Mail (percentage)	Total number of PACT disability claims submitted through mail out of the total number of PACT disability claims submitted.
Mailed Claims Submitted with a Power of Attorney on File with VA (percentage)	Total number of PACT disability claims submitted through mail where the Veteran is represented by a Power of Attorney out of the total number of PACT disability claims submitted through mail.
Pending Claims-PACT Related	This metric identifies the number of VBA claims with at least one PACT Act-related condition pending in the workload.
Pending Claims–Non-PACT Related	This metric identifies the number of VBA claims which do not have any conditions related to the PACT Act pending in the workload.
Total Pending PACT Act Related Claims with Partial Decisions	This metric identifies the number of currently pending PACT related disability benefit claims where a partial decision was rendered on the claim.
Total Pending Non-PACT Act Related Claims with Partial Decisions	This metric identifies the number of currently pending non-PACT related disability benefit claims where a partial decision was rendered on the claim
Top 5 Most Frequent Conditions on PACT Act Related Claims	Top 5 most frequent conditions on PACT Act related disability claims with breakouts for the # of distinct claims associated with these claimed conditions, the total number of distinct issues claimed, the total number of issues granted, and the grant/denial rate.
	To learn more about these health issues, please visit the Veteran's Health Library, <u>https://www.veteranshealthlibrary.va.gov/</u> and the Veteran's Health Encyclopedia.pg?page=2&pagesize=25&letter=A
Most Frequent Denial Reasons	Top 3 reasons for denials on decisions on PACT disability claims: Not Incurred/Caused by Service: Claimed condition is denied because condition neither occurred in nor was caused by military service; No Diagnosis: Claimed condition is denied because the medical evidence of record fails to show that the disability has been clinically diagnosed; Not Established by Presumption: Claimed condition is denied because the evidence of record does not show that certain criteria was met for a grant of service connection on a presumptive basis.
Total Pending PACT Act Claims	This statistic identifies the current number of pending VBA benefit claims with one or more PACT Act-related conditions.
Total Pending Non-PACT Act Claims	This statistic identifies the current number of pending VBA benefit claims without any PACT Act-related conditions.
VA.gov/PACT Page Views	This metric identifies the number of page views for the va.gov/PACT website.
Total Clicks on Call to Action to File a Disability Claim Online	This statistic identifies the number of times visitors to the VA.gov/PACT website clicked the "Apply for Benefits" link to file a disability compensation claim online.
Total Clicks on Call to Action to Enroll in Health Care	This statistic identifies the number of times visitors to the VA.gov/PACT website clicked the "Apply for Health Care" link to apply for VA health care online.

Metric/Term

Full-Time Equivalent Employee (FTE)

Account

Permanent Employee Term Employee Onboarded

Funds Allocated Obligations

Definition

Full-Time Equivalent refers to the total number of regular straight-time hours worked by employees divided by the number of compensable hours applicable to each fiscal year (regular method), or the total regular hours worked in a fiscal year (2,080 hours) divided by 26 biweekly pay periods (pay period method)(as per OMB A-11 Circular § 85.5(c)).

Account refers to a separate financial reporting unit used by the Federal Government to record budget authority, outlays and income for budgeting or management information purposes as well as for accounting purposes.

An employee who has been hired under an appointment that is not time delimited.

An employee for whom the agency has granted a term appointment (of employment) of more than 1 year but usually not more than 4 years. Onboards (i.e., the number of personnel encumbering positions) are the number of employees (i.e., headcount) onboard when the data are reported. Note: "Onboards" differ from "FTE," which is a budgetary term based on compensable hours as opposed to headcount. Colloquially, "onboards" refers to newly hired employees who have started work with VA (their hiring is complete). The amount of funding provided to each Administration or Staff Office.

Obligation means a binding agreement that will result in outlays, immediately or in the future.
