

# VA PACT ACT

## PERFORMANCE DASHBOARD

SEPTEMBER 20, 2024

ISSUE FORTY-ONE  
Published Monthly on the Third Friday

In this VA PACT Act Performance Dashboard, we are demonstrating our commitment to transparency by sharing with all stakeholders—internal to VA and externally—key performance metrics and data we are using to assess our success in implementing the PACT Act.

If you, a Veteran, family member, or survivor would like more information about the PACT Act and your VA benefits, please start here:

### Highlight

On September 3, 2024, VA announced that VA hospitals outperformed non-VA hospitals in two major independent, nationwide reviews for patient satisfaction and care quality. In the most recent Centers for Medicare & Medicaid Services (CMS) Hospital Consumer Assessment of Healthcare Providers and Systems star ratings, 79% of VA facilities received a summary star rating of 4 or 5 stars compared to 40% of non-VA hospitals. In this year's CMS Overall Hospital Quality Star Ratings, more than 58% of VA hospitals included received 4- or 5-star ratings compared to 40% of non-VA hospitals. These findings come as Veteran trust in VA outpatient care has reached an [all-time record high of 92%](#) (based on a survey of more than 440,000 Veterans). Over the past year, VA has ensured maximum Veteran access to this care by [increasing night and weekend clinics](#), [decreasing wait times](#), and [making millions of Veterans newly eligible](#) for VA care. VA encourages all eligible Veterans to [apply for VA care today](#).

### Making a Difference Through the PACT Act

The passage of the PACT Act marked a transformative step in addressing care gaps Veterans were facing after returning home. Since August 2022, 5.6 million Veterans have been screened for toxic exposures, and more than 740,000 Veterans have enrolled in VA health care. Navy Veteran Ron Haskell is one of them. He started receiving his care at VA through the PACT Act in December 2023. Haskell previously received care through a non-VA provider, but when his provider started charging a monthly concierge subscription fee for care, he began exploring his options with VA. "For the first time, I had the chance to 'choose VA' for my health care," he said. "I am one of the 3.5 million Veterans eligible for VA care through the PACT Act. VA helped me enroll in a military environmental exposure registry and started my screening." [Read more here.](#)

## VA IS EXPANDING CARE AND BENEFITS FOR VETERANS AND SURVIVORS

The PACT Act is perhaps the largest health care and benefits expansion in VA history. In this section, we are measuring the overall impact of the PACT Act in terms of its expansion of health care and benefits.

### Expanding Benefits

**1,236,237**

Total PACT Act Claims Approved  
(08/10/2022–09/14/2024)

**74.7%**

Approval Rate for PACT Act Related Claims  
(09/14/2024)

**1,654,299**

Cumulative Total PACT Related Claims Completed  
(08/10/2022–09/14/2024)

**168.4**

Average Days for PACT Act Related Claim Completion  
(09/14/2024)

**36.8%**

PACT Act Related Claims Completed ≤125 days  
(09/14/2024)

### Expanding Care

**350,204**

New Enrollees in the PACT Act Planning Population  
(08/10/2022–09/14/2024)

**Total New VHA Enrollees:** (through 09/14/2024)

**91.8%**

STEWARDSHIP

Issue 41—September 20, 2024

VA seeks to act as a wise steward of PACT Act resources. In this section, we measure VA's success in hiring and obligating resources funded through the PACT Act Toxic Exposures Fund, P.L. 117-68.

PACT ACT Toxic Exposures Fund (TEF)

Allocation Plan as of June 12, 2024; Obligation and Execution Report for Data through July 31, 2024 (since enactment) (\$s in Thousands). Stewardship information will be included in every issue of the VA PACT Act Dashboard or when updated data is available.

VA ACCOUNT (Initial \$500 Million)	HIRING			FUNDS		
	FULL-TIME EQUIVALENT EMPLOYEES (FTE)	PERMANENT EMPLOYEES ONBOARDED	TERM EMPLOYEES ONBOARDED	FUNDS ALLOCATED	TOTAL OBLIGATIONS	PAID EXPENDITURES

Definition

This statistic identifies the total number of VBA benefits claims with at least one PACT Act related condition received since August 10, 2022.  
This trust score reflects the percentage of Veterans who respond to the survey question, "I trust the VHA [Facility Name] for my health care needs" with a score of 4 or 5.  
Percentage of PACT act disability claims where at least one condition was granted (regardless of whether or not the condition was filed under PACT).  
This metric indicates the length of time it takes VBA to process a PACT Act-related benefits claim. This is measured from the date VA receives a claim to the date VA finished processing the claim and closed it out + 1 day, to eliminate the possibility of claims being completed in 0 days (ex. claim completed on the day it was received).  
The Average Days to Complete (ADC) for PACT Act Related Claims is calculated based on the date VA received the claim, not the date VA began processing those claims. VA prioritized and completed some claims related to terminal illnesses, but VA did not begin processing most claims until January 1, 2023. As a result, the current value of ADC is inflated by any time between the date the claim was received and the January 1, 2023 implementation date for processing. The high ADC for PACT claims demonstrates VA's commitment to completing oldest pending claims first.  
This statistic identifies the number of VBA benefit claims with one or more PACT Act-related conditions that have been completed in 125 days or less.  
This metric identifies the number of completed PACT disability claims where at least one issue was granted.  
The PACT Act Planning Population consists of Veterans where VA has a high level of confidence they are a member of one or more of the three PACT Act eligible cohorts (Vietnam, Gulf-War, Post 9-11). VA is using this population as a means of identifying the impact of the PACT Act on enrollment in VA health care.  
This statistic measures the number of new enrollees in VA health care that fall within the PACT Act Planning Population to understand the impact of the PACT Act on enrollment. By design, this more focused metric will always be a subset of the metric above that shows overall new enrollment regardless of whether a Veteran is in an eligible PACT Act cohort. Together these two enrollment metrics help identify both the broad impact of PACT Act on enrollment - for example, those who may enroll for VA health care because of the publicity of PACT Act but are not directly eligible because of PACT Act—and the more direct impact of PACT Act—meaning those who are enrolling from populations VA assesses as becoming eligible due to the PACT Act.  
This statistic identifies the total new VHA enrollments (newly registered healthcare beneficiaries) for the periods of August 2022-End of Current Month 2023 and August 2021-End of month 2022, for comparative analysis purposes.  
This number identifies the change between 2023 and 2022 VHA enrollees during the same time period.  
This calendar identifies key activities or outreach events occurring in the coming weeks.

Priority Group Eligibility Criteria

Definition

This statistic identifies the number of Veterans who have received a VHA Toxic Exposure Screening. Every Veteran enrolled in VA health care will receive an initial screening and a follow-up screening at least once every 5 years. Veterans who are not enrolled and who meet eligibility requirements will have an opportunity to enroll and receive the screening.  
The screening will ask Veterans if they think they were exposed to any of these hazards while serving: Open burn pits and other airborne hazards, Gulf War-related exposures, Agent Orange Radiation, Camp Lejeune contaminated water exposure and/or Other Exposures.  
This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified **at least one exposure** to toxic substances. It includes the number of Veterans who received the screening, the number of Veterans who identified at least one potential concern related to a toxic substance exposure, and the percentage of responses in which Veterans identified at least one instance of toxic exposure during the screening.  
This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified **exactly one exposure** to toxic substances.  
**Please note the difference from the metric above – the metric above includes Veterans who identified at least one (includes both those who identified one exposure and also those who identified more than one exposure); this metric only includes Veterans who identify exactly one exposure.**  
This statistic identifies the number of VHA Toxic Exposure Screenings where a Veteran identified **more than one exposure** to toxic substances.  
**Please note the difference from the metric above—the metric above includes Veterans who identify exactly one potential concern; this metric includes Veterans who identify more than one potential concern.**  
When Veterans apply for VA health care, they are assigned to 1 of 8 priority groups that impact how soon they are enrolled in for health care benefits and how much they might have to pay (if anything) toward the cost of care. To learn more about the factors that impact assignment, please visit <https://www.ecfr.gov/current/title-38/chapter-I/part-17/subject-group-ECFRf01c7718f2a7e24/section-17.36>.  
This metric measures the number of new enrollees who were specifically enrolled with an authority provided by the PACT Act (P.L. 117-168). This includes 1-year Special Eligibility, 10-Year Special Eligibility, Agent Orange Exposure, and Radiation Exposure. For more on information on eligibility for enrollment, please visit [www.va.gov/pact](http://www.va.gov/pact). VA utilizes a number of authorities to enroll Veterans, both authorities granted in the PACT Act and pre-existing authorities. VA applies the authority that will result in the Veteran being placed into the highest priority group possible.  
Change Avenues:  
PG4-8 to PG1-3: Enrollees in priority group 4, 5, 6, 7A, 7C, 8A, 8C, 8B, or 8D that moved to priority group 1, 2, 3.  
Within PG 1-3: Enrollees in priority group 1, 2, 3 that moved to priority group 1, 2.  
PG7-8 to PG6: Enrollees in priority group 7 or 8 that moved to priority group 6.  
When enrolling in VA health care, Veterans are assigned to one of eight priority groups. A Veteran's priority group can affect how much (if anything) they may have to pay toward the cost of their care.  
Group 1: Service-connected disability rated as 50% or more disabling, or have service-connected disability that makes one unable to work, or received the Medal of Honor.  
Group 2: Service-connected disability rated as 30% or 40% disabling.  
Group 3: Former prisoner of war, or received the Purple Heart medal, or were discharged for a disability that was caused by—or got worse because of—one's active-duty service, or service-connected disability rated as 10% or 20% disabling, or awarded special eligibility classification under Title 38, U.S.C § 1151, "benefits for individuals disabled by treatment or vocational rehabilitation".  
Group 4: Are receiving VA aid and attendance or housebound benefits, or received a VA determination of being catastrophically disabled.  
Group 5: Do not have a service-connected disability, or have a non-compensable service-connected disability rated as 0% disabling, and have an annual income level below our adjusted income limits (based on resident ZIP code), or receiving VA pension benefits, or eligible for Medicaid programs.  
Group 6: Have a compensable service-connected disability rated as 0% disabling, or exposed to ionizing radiation during atmospheric testing or during the occupation of Hiroshima and Nagasaki, or participated in Project 112/SHAD, or served in the Republic of Vietnam between 1/9/1962 and 5/7/1975, or served in Persian Gulf War between 9/2/1990 and 11/11/1998, or served on active duty at Camp Lejeune 30+ days between 8/1/1953 and 12/31/1987. VA may also assign a Veteran to priority group 6 if they meet all of the requirements listed below. Veterans are: Currently or newly enrolled in VA health care, and served in a theater of combat operations after 11/11/1998, or were discharged from active duty on or after 1/28/2003, and were discharged less than 5 years ago.  
Group 7: Gross household income is below the geographically adjusted income limits (GMT) for where one lives and agrees to pay copays.  
Group 8: Gross household income is above VA income limits and geographically adjusted income limits for where one lives, and agree to pay copays. Eligibility for VA health care benefits will depend on subpriority group.

 Total MyVA411 Calls that Access the PACT Act Main Menu (Press 8)

### Definition

This statistic identifies the number of calls to 1-800-MyVA411 where callers selected the PACT Act Main Menu (Press 8).  
 This statistic identifies the total number of calls received to the automated MyVA411 line (option 8), which provides information about the PACT Act to callers.

## Stewardship

Reminder: Stewardship information will be included in every other issue of this dashboard publication (or when updated data is available).

### Metric/Term

Full-Time Equivalent Employee (FTE)  
  
 Account  
  
 Permanent Employee  
 Term Employee  
 Onboarded  
  
 Funds Allocated  
 Obligations

### Definition

Full-Time Equivalent refers to the total number of regular straight-time hours worked by employees divided by the number of compensable hours applicable to each fiscal year (regular method), or the total regular hours worked in a fiscal year (2,080 hours) divided by 26 biweekly pay periods (pay period method)(as per OMB A-11 Circular § 85.5(c)).  
 Account refers to a separate financial reporting unit used by the Federal Government to record budget authority, outlays and income for budgeting or management information purposes as well as for accounting purposes.  
 An employee who has been hired under an appointment that is not time delimited.  
 An employee for whom the agency has granted a term appointment (of employment) of more than 1 year but usually not more than 4 years.  
 Onboards (i.e., the number of personnel encumbering positions) are the number of employees (i.e., headcount) onboard when the data are reported. Note: "Onboards" differ from "FTE," which is a budgetary term based on compensable hours as opposed to headcount. Colloquially, "onboards" refers to newly hired employees who have started work with VA (their hiring is complete).  
 The amount of funding provided to each Administration or Staff Office.  
 Obligation means a binding agreement that will result in outlays, immediately or in the future.
