

and continuing to encourage Members to send orders, thereby contributing towards a robust and well-balanced market ecosystem.

The Exchange also believes the proposed rule change does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues they may participate on and direct their order flow, including 15 other options exchanges. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single options exchange has more than 18% of the market share. Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchanges if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.” The fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’” Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

PARTICIPATING AGENCIES:

SSA and VA VBA.

AUTHORITY FOR CONDUCTING THE MATCHING PROGRAM:

This Agreement is executed under the Privacy Act of 1974, 5 U.S.C. 552a, as amended by the Computer Matching and Privacy Protection Act (CMPPA) of

1988, Public Law (Pub. L.) 100–503, 102 Stat. 2507 (1988), as amended, and the Computer Matching and Privacy Protection Amendments of 1990, and the regulations and guidance promulgated thereunder.

The CMPPA applies when computerized comparisons of Privacy Act-protected records contained within a Federal agency’s databases and the records of another organization are made in order to determine an individual’s eligibility to receive a Federal benefit. The CMPPA requires the parties participating in a matching program to execute a written agreement specifying the terms and conditions under which the matching program will be conducted.

Legal authorities for the disclosures under this Agreement are covered by two sections of the Social Security Act (Act):

- Section 1144(a)(1) and (b)(1) of the Act [42 U.S.C. 1320b–14(a)(1) and (b)(1)] concerns the SSA’s outreach efforts to increase awareness of the availability of Medicare cost-sharing and subsidies for low-income individuals under Title XVIII of the Act (Medicare).

- Section 1860D 14(a)(3) of the Act [42 U.S.C. 1395w 114(a)(3)] concerns the Medicare coverage gap discount program that makes manufacturer discounts available to eligible Medicare beneficiaries receiving applicable, covered Part D drugs, while in the coverage gap.

PURPOSE(S):

This matching program establishes the conditions under which the VA VBA will provide SSA with VA compensation and pension payment data. This disclosure will provide SSA with information necessary to verify an individual’s self-certification of eligibility for the Medicare Prescription Drug (Medicare Part D) subsidy (Extra Help). It will also enable SSA to identify individuals who may qualify for Extra Help as part of the agency’s Medicare outreach efforts.

CATEGORIES OF INDIVIDUALS:

The individuals whose information is involved in this matching program are those who are recorded in VA compensation and pension payment records and are matched with data in SSA’s Medicare Database system of records. Such individuals have self-certified eligibility to SSA for the Medicare Part D Extra Help. In addition, SSA will use the information to identify individuals who may qualify for Extra Help as part of the agency’s Medicare outreach efforts.

CATEGORIES OF RECORDS:

VA’s data file comes from compensation and pension payment data records. SSA matches VA data against Medicare Database (MDB) data.

SSA will conduct the match using the Social Security number, name, date of birth, and VA claim number on both the VA file and the MDB.

SYSTEM(S) OF RECORDS:

VA will provide compensation and pension payment data from its System of Records (SOR) entitled “Compensation, Pension, Education, and Vocational Rehabilitation and Employment Records–VA” (58VA21/22/28), last fully published at 74 FR 14865 (April 1, 2009) and last amended at 86 FR 61858 (November 8, 2021).

SSA will match the VA data with SSA SOR “Medicare Database File,” 60–0321, last fully published at 71 FR 42159 (July 25, 2006) and amended at 72 FR 69723 (December 10, 2007) and 83 FR 54969 (November 1, 2018).
