Authority for Conducting the Matching Program

The statutory authority for the matching program is 42 U.S.C. 18001 et seq.

Purpose(s)

The purpose of the matching program is to assist CMS in determining individuals’ eligibility for financial assistance in paying for private health insurance coverage. In this matching program, VHA provides CMS with data when a state administering entity (AE) requests it and VHA is authorized to release it, verifying whether an individual who is applying for or is enrolled in private health insurance coverage under a qualified health plan through a federally-facilitated health insurance exchange or state-based exchange is eligible for coverage under a VHA health plan. CMS makes the data provided by VHA available to the requesting AE through a data services hub to use in determining the applicant’s or enrollee’s eligibility for financial assistance (including an advance tax credit and cost-sharing reduction, which are types of insurance affordability programs) in paying for private health insurance coverage. VHA health plans provide minimum essential coverage, and eligibility for such plans precludes eligibility for financial assistance in paying for private coverage. The data provided by VHA under this matching program will be used by CMS and AEs to authenticate each enrollee’s identity, determine the enrollee’s eligibility for financial assistance, and determine the amount of the financial assistance.

Categories of Individuals

The categories of individuals whose information will be used in the matching program are Veterans whose records at VHA match identifying data provided to CMS by CMS (submitted by AEs) about individuals who are applying for or are enrolled in private health insurance coverage under a qualified health plan through a federally-facilitated health insurance exchange or state-based exchange.

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS’ intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the Federal Register concerning each proposed collection of information (including each proposed extension or reinstatement of an existing collection of information) and to allow 60 days for public comment on the proposed action. Interested persons are invited to send comments regarding our burden estimates or any other aspect of this collection of information, including the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility, and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by November 13, 2023.

ADDRESSES: When commenting, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be submitted in any one of the following ways:

1. Electronically. You may send your comments electronically to http://www.regulations.gov. Follow the instructions for “Comment or Submission” or “More Search Options” to find the information collection document(s) that are accepting comments.
2. By regular mail. You may mail written comments to the following address: CMS, Office of Strategic Operations and Regulatory Affairs, Division of Regulations Development, Attention: Document Identifier/OMB Control Number: [ ] Room C4–26–05, 7500 Security Boulevard, Baltimore, Maryland 21244–1850.

SUPPLEMENTARY INFORMATION:

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection’s supporting statement and associated materials (see ADDRESSES).

CMS–R–21 Withholding Medicare Payments to Recover Medicaid Overpayments and Supporting Regulations in 42 CFR 447.31
CMS–8003 1915(c) Home and Community Based Services (HCBS) Waiver Application

Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term “collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(e)(2)(A) of the PRA requires Federal agencies to publish a 60-day notice in the Federal Register concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Type of Information Collection Request: Extension of a currently approved collection; Title of Information Collection: Withholding Medicare Payments to Recover Medicaid Overpayments and Supporting Regulations in 42 CFR 447.31; Use: Certain Medicaid providers that are subject to offsets for the collection of Medicaid overpayments may terminate or substantially reduce their participation in Medicaid, leaving the State Medicaid agency unable to recover the amounts due. Recovery procedures allow for determining the amount of overpayments and offsetting the overpayments by withholding the provider’s Medicare payments. To effectuate the withholding, the State agency must provide their respective CMS regional office with certain documentation that identifies the provider and the Medicaid overpayment amount. The agency must also demonstrate that the provider was notified of the overpayment and that demand for the overpayment was made. An opportunity to appeal the overpayment determination must be
